Minjun Kang, Ph.D

Co-Founder, Chief Scientific Officer | NOAH'S FARM.PTE. LTD.

1. Contact

a. E-mail:mj@noahs-farm.xyz; Homepage; Linkedin;

2. Career

- **NOAH'S FARM PTE. LTD. | Co-Founder** **Singapore, US**
  Chief Scientific Officer (Chief Scientist) **July 2026-Present**
  a. Leading the scientific direction of Noah's Farm — generative AI for flavor molecule design at the chemical level. Setting research priorities across N-Palette, N-DB, and N-Block; partnering with leading flavorists, protein designers, and academic labs.
  Founding CTO (Chief Technology Officer) **April 2025-June 2026**
  a. Architected N-Palette and N-Block, proprietary generative AI models that design and predict novel flavor molecules at the chemical level. Built the first-of-its-kind dataset mapping molecular composition to biochemical interactions.
  b. Raised USD $2.8M (Pre-seed) from Sazze Partners (Silicon Valley) and Company K Partners (Korea). Homepage
- **Seoul National University Hospital** **Seoul, KR**
  Researcher in cardiology (Department of Cardiovascular) **July 2020-February 2025**
  -Computer Sciences
  a. Generation of Ligands about GPCR, target of Stem cell Therapeutics using generative AI
  -Stem Cell Biology
  a. Advanced Cardiac Differentiation Protocols: Mouse Embryonic & Human-induced Pluripotent Stem Cell (iPSC) Systems
  b. Preservation Techniques for Pluripotent Human-iPSC and Mouse Embryonic Stem Cells
  c. Lenti-viral Overexpression Vector Development
  d. Creation of Conditional Knockout Transgenic Mouse
- **ALTERNATE Inc. – Founder.** **Seoul, KR**
  Founder **February 2021-March 2024**
  a. Founded an early-stage cultured (cell-based) meat venture developing sustainable lab-grown meat.
  b. Selected as a finalist (Topic: Cultured Meat) in the National Development Project organized by the Korean Chamber of Commerce and Industry (2021)

3. Education

- **Seoul National University**
  Ph.D. in Medicine, (PI: Hyun-Jai Cho) 2024-2027
  a. Selected for Korea National R&D Excellence 100 in 2025,
  Top 5 Medical R&D among Korea's Top 30 Healthcare Research in 2025
  b. Awarded Full Tuition Ph.D. Scholarship by the Kwanak Foundation of SNU
  Research focus: Generative AI for *de novo* discovery of cardiac-specific GPCR ligands
- **Seoul National University**
  M.Sc. in Medicine, (PI: Hyo-Soo Kim) 2020-2024
  a. Graduated with **Valedictorian,** recognized for academic excellence.
  b. Received the **Excellent Thesis Honor**.
  Research focus: the mechanism of a GPCR with potential as a target for gene and stem cell therapies.
- **CHA University (Founded by Cha Medical Group)**
  B.S. Department of Bio Medicine 2012-2018

4. Honor

a. **Top 5 Medical R&D among Korea's Top 30 Healthcare Research** (Korea Health Industry Development Institute (KHIDI), 2025)**, Korea National R&D Excellence 100** (Ministry of Science and ICT(MSIT), 2025)
(Elucidating the Pathogenic Mechanisms of Dilated Cardiomyopathy: Establishing a Foundational Platform Technology for the Development of Therapeutics for Refractory Heart Failure, PI: Hyo-Soo Kim)
b. **Excellent Thesis Honor** (Seoul National University, 2024)
c. **Excellent Paper Honor** (Basic Science Society of the Korean Heart Association, 2024)

5. Research

Academic Activities

a. **Grant Reviewer, Foundation For Food & Agriculture Research (FFAR, USDA)**
b. Reviewer, Springer Nature (Q1)
Medicine
- Scientific Reports, BMC Medicine, European Journal of Medical Research, BMC series (Health Services Research, Endocrine Disorders, Pregnancy and Childbirth, Geriatrics)

Food Science and Technology
- npj Science of Food, European journal of nutrition, Nutrition Journal, Nutrition & Metabolism, BMC Nutrition, Discover Food

Member

a. **AHA (American Heart Association) Professional Member**
b. International Society For Stem Cell Research (ISSCR) Member
c. AChemS (Association for Chemoreception Sciences) Member

First Author

a. ***Minjun Kang*****,** Choon-Soo Lee, HyunJu Son, Jeongha Lee, Jaewon Lee, Hyun Ju Seo, Moo-kang Kim, Murim Choi, Hyun-Jai Cho, and Hyo-Soo Kim. Latrophilin-2 deletion in cardiomyocyte disrupts cell junction, leading to D-CMP - *Circulation Research* **(IF 23.219, 2024, Top-ranked journal in Cardiovascular research)**

Co-Author

a. Jeehoon Kang, Hyun Ju Seo, HyunJu Son, ***Minjun Kang***, Jaewon Lee, Eun Ju Lee, Hyun-Jai Cho, Hyo-Soo Kim. Newly-engineered angiopoietin-1 as a cell-priming agent for CVD - *Cellular and Molecular Life Sciences* **(IF 6.2, 2025)**

b. Jin-Woo Lee, Choon-Soo Lee, HyunJu Son, Jaewon Lee, ***Minjun Kang***, Jinho Chai, Hyun-Jai Cho, Hyo-Soo Kim. SOX17-mediated LPAR4 expression plays a pivotal role in cardiac development and regeneration after myocardial infarction -*Experimental & Molecular Medicine* **(IF 12.153, 2023)**

c. Choon-Soo Lee, Hyun-Jai Cho, Jin-Woo Lee, Hyun Ju Son, Jaewon Lee, ***Minjun Kang***, Hyo-Soo Kim. The G Protein-Coupled Receptor Latrophilin-2, A Marker for Heart Development, Induces Myocardial Repair After Infarction -*Stem Cell Translational Medicine* **(IF 6. 94, 2022)**

6. Scholarship (Total USD $17,700, 20-26)

a. Full Tuition PhD Scholarship by the Gwanak Foundation of Seoul National University
b. BK21 Scholarship by the Seoul National University

7. Certificate

a. CS50**:** Introduction to Computer Science **(Harvard University)**
